The applicant must understand that he or she will not receive any funds: an instructor – agreed upon by the applicant and myself – will receive the money. After six months, you will give a public recital; at this time, the instructor and I will determine if you are making enough progress to receive another six months. Lessons will continue until such time as the instructor and I feel you are ready for further guitar enrichment.

Along with this application, I would like you to include a few sentences telling how you see the classical guitar fitting into your life.
